50 CENTS PER MONTH

LICENSE OF JAPANESE LAUNDRY IS REVOKED

IT IS DECLARED MENACE AND NUISANCE

City Engineer Balderston's
Resignation Presented
and Accepted

VULCANIZING WORKS
SUBJECT OF COMPLAINT

Sewer District Again Stumbles
—Wrongly Informed as
to Bonding Law

The menace of a Japanese laundry,
a nuisance created by smoke from a
vulcanizing works and the intention
of the Pacific Electric tract section
to get sewers were the chief objects
of discussion at a meeting of the City
Trustees last night.

The laundry had been issued a per-
mit by the city marshal. It intends
to do business in a building opposite
the postoffice. City Clerk Bedford
called attention to the ordinance
showing that laundries must be licensed
by the trustees, not by the city
marshal. The marshal said he was
acting under the advice of the city
attorney, but now saw that he was
wrong. The trustees revoked the li-
cense.

The nuisance created by smoke from
a vulcanizing works, also opposite
the postoffice, was complained
against. It appears that this nuisance
can be stopped by the fire chief, who
can compel the producer of much
smoke to put up a high chimney.

The property owners of the Pacific
Electric tract met with disap-
pointment. Acting under the advice
of the city attorney petitions had been
prepared for laying sewers in that dis-
trict under the bonding act. That is,
each lot could be bonded to meet
the payment. Last night the city at-
torney announced that the bonds
could not be used unless the cost per
lot is \$25 or more. That knocked the
district's plans in the head, as the
cost per lot there will be but \$11. So
another attempt is to be made to get
the matter into shape to get sewers.

Not Favored
"I report unfavorably on a fire hy-
drant at the corner of Valencia and
Twentieth streets," said water works
Superintendent Reid. Report adopted.

The city attorney's letter from the
P. E. in regard to improving streets
was read. The letter stated that the
delay was due to a lack of crushed
rocks. "We are doing the best we
can," said the letter, written by the
general manager, J. McMillan. "The
company is lacking some of the material,"
said Street Superintendent English.
"There are fifteen to thirty
men at work now on the P. E. im-
provements."

After the Sewers
Property owners in the Artesia dis-
trict, bounded by a line 125 feet out-
side of First, Baker, Fifth and Ar-
tesia streets, asked that sewers be
laid under the 19-year bonding clause
of the Freeman act at once. This
district was unable to get sewers un-
der the district bonding act because
the act proved illegal. It is now pro-
posed to force the sewers down.
There will be little, if any, opposition.
There were 8600 front feet, one-third
of the total, represented on the peti-
tion.

City Attorney Heathman said each
lot will be assessed for the cost per
lot, but the bonding provision can not
be used if the cost is not less than
\$25 per lot. That is, the district can-
not be bonded in any way. In the be-
ginning the city attorney had advised
the petitioners the bonding provision
could be used. On that advice the at-
torney advised that the money must be
paid as soon as the work is done, else
the amount will be a lien on the lot.
Reid's estimate for the cost is \$11
per lot. The sentiment of those pres-
ent was to have the proceedings go
ahead and make the payment when
the work is done.

Trustee McPhee moved that the
matter be laid over until Friday night,
and if anyone objects to the cash
basis let them appear that night. The
motion carried.

"I will vote to have the city con-
nect this district with the outfall,"
said McPhee. The trustees then
voted that in case the district lays its
sewers the city will put in a line from
the district to the outfall.

Petition Granted
A petition was presented asking
that C. A. Bennett be given a permit
to keep a rental auto on the east side
of Main street, south of Fourth. Peti-
tion granted, at the pleasure of the
board.

A letter from the secretary of the
(Continued on Page Three)

OFFICE OF CITY ENGINEER VACANT

Last night the resignation of
City Engineer George Balderston
was presented to the City Trust-
tees, and was accepted. Balder-
ston is "well-fixed" with this
world's goods, and he evidently
does not care to be tied down
tight to a city job.

Who will be his successor?
George Wells, who was Balder-
ston's leading competitor for the
appointment, has taken a position
with the federal service in Los
Angeles. At the time of Balder-
ston's appointment there was
some talk of possibilities for the
appointment, and among the
names mentioned were those of
Col. S. H. Finley, George Magill
and C. R. Schenck.

THE WEATHER

Fair tonight and Wednes-
day; light west wind.

Lord Curzon Keeps
Tattershall Castle at Home
LONDON, Nov. 7.—Tattershall Cas-
tle in Lincolnshire has been purchas-
ed by Lord Curzon to prevent its sug-
gested demolition and removal to
America.

Edison Co. Gives
Whittier Cheaper Light
WHITTIER, Nov. 7.—The Southern
California Edison Company, at a meet-
ing of the Whittier City Council last
night, voluntarily reduced the rate to
the city for electric energy, one cent
per kilowatt hour. The lower rate
will take effect January 1, 1912.

Island Rises
Near Venezuelan Coast
PORT OF SPAIN, Trinidad, Nov. 7.—
An island has suddenly risen from
the sea at the Serpent's Mouth Strait,
between Trinidad and the Venezuelan
Coast.

Californian Found
Dead in New York Hotel
NEW YORK, Nov. 7.—The body of
a man registered as Maurice Stewart
of San Francisco, Cal., was found in
a room at the Hotel Astor last evening.
There was a bullet wound over the
heart, believed to have been self-in-
flicted. He was apparently 35 years
old.

\$1000 Prize Goes to
Colorado Beet Sugar Grower
NEW YORK, Nov. 7.—A silver cup,
valued at \$1000, donated by Horace
Havemeyer of this city for presenta-
tion to the grower of the best sugar
beets in the United States, was award-
ed last night at the National Land
and Irrigation show to P. O. Timothy of
Greeley, Colo.

Mrs. McCrea Out
Of Jail on \$5000 Bond
OPELOUSAS, La., Nov. 7.—Mrs. J.
P. McCrea, charged with the murder
of Allen Garland returned to her
home here today from the jail where
she has been confined since the shoot-
ing of Garland two months ago. She
was admitted to \$5000 bail. Mrs. Mc-
Crea's first trial for the alleged mur-
der, resulted in a hung jury. The sec-
ond trial will probably start within
a month.

Taft Took Seven
Minutes to Mark Ballot
CINCINNATI, Nov. 7.—It required
seven minutes for President Taft to
mark his ballot at the municipal elec-
tions today.

Dr. Lambden, Editor of
Philadelphia Ledger, Dead
PHILADELPHIA, Nov. 7.—Dr. Al-
fred Lambden, editor of the Philadel-
phia Ledger, died suddenly of heart
disease at his home here today.

DR. HELEN KNABE BELIEVED TO HAVE ENDED OWN LIFE

INDIANAPOLIS, Ind., Nov. 7.—
That Dr. Helen Knabe, former state
pathologist, who was found dead in
her office here, was not the victim
of a cunningly planned murder, but
took her own life in a fit of despond-
ency over professional reverses, is the
opinion expressed here today by Wil-
liam J. Burns, head of the Burns Na-
tional Detective Agency. Dr. Knabe
was found lying almost nude on the
floor of her office with her throat
cut.

TO PREVENT ILLEGAL VOTING
CHICAGO, Nov. 7.—Steps to prevent
illegal voting in a judicial election to-
day were taken by County Judge John
E. Owens when he ruled that 1700
lodging-house affidavits, under which
the keepers had registered the names
of their supposed guests, were illegal-
ly drawn.

NEWSPAPER MEN MANY PRECINCT ACCUSE ITALY OF CRUELTY

of Anaheim

MERCILESS CRUELTY TO SICK, WEAK, CRIPPLED

Turks Slay 500 Italians at
Derna—Italy Is Sick of
the War Game

BERLIN, Nov. 7.—The charges of
Francis McCallagh, correspondent of
the New York World at Tripoli, of
brutalities against the Turks com-
mitted by Herr Gottberg, the Tripoli
correspondent of the Lokal Anzeiger,
a prominent newspaper of this city,
who left his post because of alleged
Italian atrocities. In a telegraphic
communication from Malta, Herr
Gottberg alleges the Italians pursued
the sick, the crippled and blind, both
women and children, and shot them
down. General Caneva, he states, was
never present during the butcheries.
The Anzeiger correspondent refers
to one specific instance where an old
woman, painfully wounded and sick,
and a boy and girl were permitted by
the Italian physicians to die of hun-
ger and thirst within the sight of hun-
dreds of soldiers.

500 ITALIANS KILLED
IN FIGHTING AT DERNÄ
CONSTANTINOPLE, Nov. 7.—The
government has issued an official
statement in which it is asserted
Turkish forces have occupied Derna
after severe fighting in which 500
Italians were killed.

Turkish Gunboat Sunk
CONSTANTINOPLE, Nov. 7.—
Akadab, Arabia, was shelled by an
Italian cruiser Sunday, and the Tur-
kish gunboat "Italidi" in port at the
time, went down under the fire, one
of its officers being killed. The dis-
trict is in a panic, but the actual dam-
age is yet unknown.

SHANNON BOUND TO BE SHELVED

Method That Deposed Ander-
son May Be Used—Ru-
mors of Resignation

SACRAMENTO, Nov. 7.—That the
same proceedings under which Alden
Anderson was deposed as state bank
examiner will be used in an effort to
dismiss State Printer W. W. Shannon
from office when the special session
of the legislature convenes on No-
vember 27, is practically assured.

The proposal to have Shannon re-
moved under criminal proceedings was
broached, but it is understood
that Governor Johnson opposed any-
thing of that nature. Impeachment
proceedings are out of the question
because the state printer's office is
not a constitutional one.

SHANNON DENIES INTENTION
OF RESIGNING OFFICE
SAN FRANCISCO, Nov. 7.—"I have
not resigned as state printer nor do
I intend relinquishing the office," de-
clared State Printer W. W. Shannon
today when asked if there was any
truth in the report that he intended
resigning because his office was under
investigation as a result of paper
deals. "I am exceedingly surprised
at the stories published to this effect
today. Further than this I have noth-
ing to say."

ANNOUNCEMENT OF EXPECTED
RESIGNATION MADE YESTERDAY
SACRAMENTO, Nov. 7.—Following
a conference he had with Governor
Johnson yesterday afternoon, it was
announced that State Printer Shan-
non had decided to resign his office.
It is thought P. W. Richardson, ed-
itor of the Berkeley Gazette, will be
his successor.

To Cure a Cold in One Day
—Take Laxative Bromo Quinine
Tablets. Druggists refund money if
it fails to cure. E. W. Grove's signa-
ture is on each box. 25c.

WOMEN VOTING MAKES DIFFERENCE

Over One-third of the Voting
Territories Must Be Cut
in Two Parts

With women voting the Board of
Supervisors will have to cut a large
number of precincts into two pre-
cincts. The changes will probably be
made in December in order to have
the precincts intact for the new reg-
istration, which will begin on Jan. 1.

A number of precinct changes were
to have been made even had the wo-
men not been admitted to registra-
tion. Olinda and Anaheim had grown
to such proportions that with the men
only voting the precincts were un-
workable.

The law contemplates that the vot-
ing population should not be greater
than 200. But two years ago it was
found necessary to make ten precincts
out of Santa Ana's five because the
five precincts had grown too large
to remain undivided.

With the women voting probably
fifteen or twenty of the forty-four
precincts in the county will be di-
vided into two, and possibly Olinda
into three precincts.

Anaheim No. 1 now has 350 men
registered, and No. 2 has 240 men.
Olinda has 400 men. Orange No. 1
has 350 and No. 2 has 400. Santa Ana
No. 6 has 280, and No. 7 has 230 and
No. 8 250. These precincts were taken
at random among the larger pre-
cincts of the county.

One of the political effects of in-
creasing the number of precincts will
be increasing the number of county
central committees.

The Board of Supervisors has re-
ceived a petition from residents who
live east of Anaheim. Though living
east of Anaheim they are in West
Anaheim precinct, and have to go to
West Anaheim to the polling place.
They ask that a polling place be es-
tablished east of Anaheim. The peti-
tion will probably be granted.

DEFENSE IN FLEMING CASE RECEIVES BLOW

REDDING, Cal., Nov. 7.—A blow
was struck at the defense today in
the trial of Daniel Fleming of Oak-
land, the state policeman charged
with the murder of George Vallier of
Tacoma, when Dr. E. M. Brown, cor-
oner at Tacoma, testified that wounds
had been made on Vallier's throat be-
fore his death. The defense claims
that all the wounds were made by
the undertaker in embalming the
corpse.

Dr. Brown first qualified as an ex-
pert on wounds. He then stated that
he had examined the body's throat
on its shipment to Tacoma, and
found that some of the wounds had
been made after death, while others
had been made before.

TWENTY-ONE JAP FISHERMEN ARE UNDER ARREST

KETCHIKAN, Alaska, Nov. 7.—
Twenty-one Japanese fishermen were
arrested by an agent of the United
States fisheries bureau on a charge of
illegally fishing in Alaskan waters.
The Japanese were placed in jail here
and their boats and gear seized. The
arrests, which are the outcome of the
mass meeting of Alaska fisheries
last week, at which protests were
made against alien fishermen being
permitted to work in Alaskan waters,
caused much excitement here.

CHIEF SURGEON McNARY QUITS SOLDIERS' HOME

SOLDIERS' HOME, Nov. 7.—The
resignation of Major O. C. McNary,
chief surgeon of the hospital attached
to the Soldiers' Home, came as a sur-
prise yesterday to all but his most in-
timate acquaintances, who had long
known of his intention to go "back to
the farm" near Whittier, where he
owns extensive property.
The resignation will take effect No-
vember 15. Surgeon C. C. Elliot will
then take charge until a permanent
successor to Dr. McNary is named by
the national board of managers.

GEN. WUN CHEN SLAIN BY BAND OF MANCHUS

Assassins Cut Him to Pieces as He
Slept in Tent—Political Mistake—
Republic in Three Days

SHANGHAI, Nov. 7.—Gen. Wu Lu
Chen, the newly appointed governor
of the province of Shan Si was exe-
cuted by Manchu soldiers today, ac-
cused of treason to the throne. Gen.
Wu was asleep in his tent when he
was killed. Thirty Manchus rushed
the guards, entered the tent and cut
Gen. Wu to pieces. Wu's troops sur-
rounded the tent and caught the as-
sassins. They in extenuation, asserted
that Wu's protestations of loyalty to
the throne were false, and declared
that he secretly was urging the mas-
sacre of the Manchus. Every man in
the band will be beheaded.

Politically the assassination of Gen.
Wu is regarded here as a Manchu
mistake. It will greatly enrage the
rebels and also deprive the govern-
ment of a strong supporter. Wu was
a rebel until the issuance of the re-
cent edict granting a constitutional
government.

TO WAIT 3 DAYS FOR CHINA TO BE DECLARED REPUBLIC

SHANGHAI, Nov. 7.—At an enor-
mous mass meeting held at Kian Fu,
in the province of Yun Nan, today,
the imperial government was granted
just three days to agree to the es-
tablishment of a republic. The mass
meeting pledged itself to join the
rebels if the government fails in this.

ANARCHY IN AMOY PROMPTS U. S. CONSUL TO WIRE FOR AID

SHANGHAI, Nov. 7.—With anarchy
reigning at Amoy, the American con-
sul today telegraphed for protection
for American residents and their in-
terests.

ROCKEFELLERS IN LIMELIGHT AGAIN

Father of Magnates Said to
Have Been Secretly Buried
for Fear of Ghouls.

CLEVELAND, O., Nov. 7.—That
Wm. E. Rockefeller, father of John D.
Rockefeller, has been dead nearly
nineteen months is the contention of
the Cleveland Press in an article
published today. The Press says: "That
William Rockefeller has been dead
since a year ago last May, has been
learned from sources within the fam-
ily. After Ida Tarbell, the political
writer and historian, had attacked
Rockefeller, no member of the family
would say whether he was alive or
dead. At the time of his death Rocke-
feller was nearly 100 years old. Sec-
recy is being maintained regarding
the location of the aged man's grave.
His sons, Frank and William, took
the body for interment. John D.
Rockefeller fears that if the location
of the grave is learned, ghouls will
despoil it of the corpse and demand a
ransom."

MAINE WENT DRY-- CORRECTED COUNT THROWS WETS OUT

AUGUSTA, Me., Nov. 7.—Maine re-
tains constitutional prohibition. Gov.
Plaisted and his council late last
night decided to accept the correc-
tions in the vote of four towns, cast
in the special election in September,
thus reversing the result as indicated
on the face of the first official re-
turns.

FUMIGATING RATE IS "HOLD UP," ALLEGES SAN BERNARDINOS

SAN BERNARDINO, Nov. 7.—Declaring that the Redlands Fruit Grow-
ers' Fumigation Association is charg-
ing extortionate rates for fumigating
the citrus groves of ranchers who
have refused to join, Lyman M. King
and Dr. Blythe appeared before the
County Supervisors yesterday to
make formal complaint.

It is alleged that the association
charges from five to ten cents a tree
more than the price fixed to the mem-
bers of the association. The super-
visors will appoint a committee to in-
vestigate and the hearing is set for
Monday.

REBEL LEADER WOULD EXILE AND PENSION COUNT

PEKIN, Nov. 7.—Gen. Li Yuen
Heng, the rebel leader, is said to
have made twenty-five demands, one
of which is that the Imperial house
hold with the entire court remove to
Jehol, remaining there permanently,
receiving in return pensions from the
new Republican government.

The National Assembly in a secret
meeting yesterday decided to explain
by wire to Yuan Shi Kai, lately ap-
pointed premier, the greatly involved
situation at Peking and asking his per-
sonal presence. It is understood that
if he does not comply with the re-
quest of the assembly, another pre-
mier will be appointed.

To Protect Women and Children

Robert Gaily, a noted Princeton
football player, who is now head of
the Young Men's Christian Association
of Peking, not trusting to the po-
lice, is organizing a band of twenty-
five Americans and British with one
hundred Chinese volunteers for de-
fense. Both Manchu and Chinese wo-
men and children will be cared for by
this body.

Nanking Viceroy Ends Life

SHANGHAI, Nov. 7.—The viceroy
of Nanking is reported to have end-
ed his life following the insubordin-
ation of the Tartar commander in de-
fending the city against a rebel at-
tack.

POTASH PROBLEM BELIEVED SOLVED

California's Sea Kelp Seems
Store House of Valuable
Deposit; New Industry

WASHINGTON, Nov. 7.—Experts of
the Department of Agriculture are
believed to have solved the potash
problem in the United States, and it
the same time discovered a great new
industry for the Pacific Coast.
The giant sea kelp of the California
shores, which has been the plaything
of children and the torment of bath-
ers, has been found to contain forty
per cent of potash.
Secretary of Agriculture Wilson re-
cently intimated that the investiga-
tors of his department had left the
beaten path of searching for potash in
rocks and were seeking for the valu-
able substance in plants, and it was
learned today that the investigation
of the California sea kelp has led to
startling results.

It has long been known that all
kelp contained potash and in some
countries it has been used as a source
of supply, but the immense quantities
of kelp on the California coast and
its high percentage of potash was not
guessed until the experts sent out by
the Department of Agriculture com-
pleted its investigations.

Something of the importance of the
discovery may be realized from the
fact that the United States has been
paying Germany over \$15,000,000 an-
nually for potash.

\$12,000 BLAZE BURNS 11 STALLS OF CITY MARKET

LOS ANGELES, Nov. 7.—Fire of an
unknown origin starting in the south
wing of the Los Angeles city market,
at Tenth and San Pedro streets,
shortly after 1 o'clock last night,
swept through eleven stalls occupied
mostly by Chinese produce merchants
on the ground floor and spread to the
restaurant of Pearce & Gill on the
second floor, entailing a loss estimat-
ed at \$12,000.

STAMPEDE OF CATTLE

NILES, Cal., Nov. 7.—Several per-
sons were injured and the residents
of this town thrown into a panic
Sunday when a herd of 200 steers
stampeded. O. E. Walsh and H.
A. Ellis, merchants, were hurt and a
house was partially demolished. A
switch engine that passed as the cat-
tle were being unloaded at the stock-
yard caused the stampede.

DR LYMAN FACING TRIALS FOR FRAUD AND ESCAPE PLAN

SAN FRANCISCO, Nov. 7.—Judge
De Havens has set December 7 as the
date of the trial of Dr. J. Grant Ly-
man on the charge of conspiracy in
his attempt to escape from the au-
thorities.
Commissioner Krull entered Decem-
ber 8 as the date for taking testi-
mony on the removal of Lyman to
Los Angeles on the charge of having
used the United States mail for frau-
dulent purposes.

GOVERNMENT SECURES RECORDS

Federal Judge in Indiana Or-
ders Evidence Delivered
in McNamara Case

JUDGE AND ATTORNEY CLASH IN LOS ANGELES

Darrow Made Fight for Juror
Challenged By State as
Mentally Weak

INDIANAPOLIS, Ind., Nov. 7.—The
books and records of the Iron Work-
ers Union, are now in the hands of
the Federal authorities. On an order
issued from the Federal bench by
Judge Anderson today the Federal
marshals went to the vaults of the
Indiana Trust Company and obtained
them. They were then placed in the
hands of a Federal grand jury in-
vestigating the dynamite cases.
In his decision Judge Bordwell
positively declared the man's belief in
Socialism does not necessarily dis-
qualify him from jury service. The
question at issue, he said, is whether
the man was mentally qualified to sit,
and be fair and impartial.

After disposing of Morton the re-
mainder of the morning session was
devoted by the defense in an attempt
to impeach George W. McKee, the ju-
ror who believed the Los Angeles
Times building was dynamited. Five
witnesses were called, who testified
that McKee had positively expressed
an opinion regarding the guilt of the
McNamaras. The feature of their in-
terrogation was the sharp cross-ex-
amination of each of these by Judge
Bordwell, who was seemingly dissat-
isfied with the way District Attorney
Ford handled the witnesses. He per-
sonally cross-examined them and forced
them to explain all the details ac-
companying their conversation. When
the evidence was completed Judge
Bordwell reserved his decision and
recess was ordered until 2:15 p. m.

DARROW AND JUDGE IN SENSATIONAL CLASH

LOS ANGELES, Nov. 7.—A sensa-
tional clash between Judge Bordwell
and Attorney for the defense Clarence
Darrow marked today's session of the
McNamara case after the court had
upheld the state's challenge against
George W. Morton, a civil war veteran.
The state had questioned Morton's
mental ability to sit as juror, and At-
torney Darrow, in a bitter and elo-
quent address declared that the only
reason the state wanted Morton elim-
inated was because he had not "learned
to their side, and because he was a
Socialist."

When Judge Bordwell sustained the
state's challenge, Darrow protested
vehemently and demanded permission
to call witnesses to prove Morton's
ability. His request was peremptorily
overruled.

REPUBLICANS ARE CLAIMING LEAD IN MASSACHUSETTS

BOSTON, Nov. 7.—Republican
Chairman Hatfield, at 3 o'clock this
afternoon declared that the returns
of today's gubernatorial election
showed a landslide for Frothingham, the
Republican candidate.
Chairman McDonald of the Demo-
cratic committee said that Foss' plu-
rality might be smaller than expected,
but that he would win.
Avon Reduces Foss Majority
AVON, Mass., Nov. 7.—Governor
Eugene N. Foss carried his town in
today's election, with 175 votes
against 135 for Frothingham, his Re-
publican opponent, for governor. Last
year Foss received 201 votes and
Draper 104.

CHURCH VOTES AND REV. RICHESON STILL PASTOR

BOSTON, Nov. 7.—At a special
meeting of Immanuel Baptist church
in Cambridge last night the members
voted to refuse to accept at this time
the resignation as pastor of the Rev.
Clarence V. T. Richeson, accused of
killing Avis Linnell. The meeting
lasted for several hours.

ALASKA HOMESTEADS OPEN

SEATTLE, Wash., Nov. 7.—Any
American citizen can go to Alaska
and take up 320 acres of agricultural
land for a homestead, according to
John P. Walker, United States Land
Surveyor, who has just returned
from the North, where he has been
conducting a survey of homestead
lands.

All women who desire to vote at the
School Bonds Election must Register
before midnight of November 14th

MAY CHARGE POSTAL THEFT

Man Who Tried to Sell May's
Check May Face a Fed-
eral Complaint

It is more than probable that Holton Espinoza will be prosecuted for stealing mail. Espinoza is the Mexican who was arrested in Los Angeles Friday night as he was trying to sell for \$8 a check for \$115.15 made out by the Santiago Orange Growers Association to A. R. May.

Espinoza is in the jail here, but as yet Deputy Sheriff Jernigan, who brought him here from Los Angeles, has brought no charge against him in the state court.

The letter in which the check was inclosed was probably stolen from May's rural delivery box on Depot street. Espinoza told two different stories to Jernigan. At first he said he found the letter on the ground on a street in the eastern part of the city, and he tore it open and found the check. Later he said he found the envelope, but another Mexican whose name he does not know tore it open. He says the envelope was

thrown away in Los Angeles. Espinoza says that he has not been at work in this vicinity. The post office authorities are investigating.

ECZEMA REMEDY ALSO WASHES PIMPLES AWAY

No remedy that I have ever sold for Eczema, Psoriasis, and all other diseases of the skin has given more thorough satisfaction than the D. D. D. Prescription for Eczema.

A 25c trial bottle can be secured at once.

My patrons find that D. D. D. not only gives instant relief to the itching, burning skin, quickly driving out all the disease germs, but it is also the most delightful wash for the complexion they ever used. Absolutely harmless and pleasant to use, D. D. D. cleanses the skin of all minor impurities, such as rashes and pimples, over night, and leaves the skin clear and smooth as that of a child.

It is now generally known that there is nothing that can equal D. D. D. as a household remedy for all skin troubles, no matter what they are.

I, myself, am so fully convinced of the merits of this wonderful remedy that I will charge you nothing if the first full size bottle of D. D. D. does not make good every claim.

Better drop in and talk it over with me anyhow.

Wingood's Drug Store.

PLACENTIA TOWNSITE Invites You to attend a Noonday BARBECUE

To be held at the Townsite, SATURDAY, NOVEMBER 11, 1911, in celebration of the opening of Townsite Addition No. 1, and as an opportunity to get acquainted with the Placentia District and Placentia people.

A year ago Placentia Townsite was a barley field. Today you will find a thriving town, with a bank, hotels, stores, newspaper, lumber yard, garage, etc. We will undertake to show you why Placentia will be a town of fifteen hundred (1500) people within five years, and why really values will double and treble. We can show the merchant openings that he cannot duplicate in the county and we can offer immediate and continuous work for the homeseeker.

Remember—Placentia Townsite is the packing and shipping point for the famous Placentia Orange District, than which there is no more productive in Southern California, and it is the distributing town for that thickly settled and prosperous section.

The opening, a year ago, of the Santa Fe Railroad's new main line east brought Placentia Townsite into existence. See what's been done in even less than twelve months.

"MEET US AT PLACENTIA ON THE ELEVENTH."

Placentia Townsite is only twelve miles from Santa Ana on the Santa Fe, via Fullerton.

Morning train leaves Santa Ana 11:30, returning leaves Placentia 5:07.

MANY ENJOY PLAYING GOLF

Course Was Never in Better
Condition—An Asset of
the County

The Santiago Golf Club is to be commended upon the condition of its links and the success with which the re-organization has been maintained. The course was never in better shape, and a large number of the members are going to the links once or twice a week for play.

It is urged that this club should be kept up as an asset of the county. Many men who come here from other places are used to having golf links near at hand, and oftentimes just such a matter as that decides a person for or against locating in a community. On that ground, there is a disposition to do all that is possible to improve the club.

A number of new members have been taken into the club lately and a great many more would be gladly welcomed. The links have been played upon recently by Pasadena men who say it is as good a course as there is in the state.

MARINE STATION AT VENICE INSTALLED

The installation of the work of the Venice Marine Biological Station of the University of Southern California will take place on Friday, Nov. 10, at Venice. In the afternoon, from 10 to 5 o'clock, the laboratory, aquarium, biological reservation and new motor sloop will be inspected. The installation exercises will be held in the evening, in the Auditorium, beginning with an organ recital from 7:30 to 8 o'clock. Then follow short addresses by Mr. Abbot Kinney, President Bovard, of the University; President Healy, of the University trustees; and Professor Urey, director of the Marine Station. An address by Professor Edwards upon Marine Biology on the Coast of California will be illustrated by many stereopticon slides. The history of marine biology, and the general methods of work will be described, together with the most interesting denizens of the deep. The program will be concluded by a concert given by the Venice Band. The public is cordially invited to be present.

AVOID HARSH DRUGS

Many Cathartics Tend to Cause Injury to the Bowels

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store, Dean's Drug Store, 104 West Fourth St.

GARDEN GROVE NEWS BUDGET

East Side Aid Society Sews
Quilts and Garments for
Children's Home

GARDEN GROVE, Nov. 7.—The ladies of the East Side Aid Society met at the home of Mrs. N. Carmichael for an all-day sewing bee. About twenty ladies were present. At noon two large tables were arranged in her spacious dining room. These tables fairly groaned with food and the ladies present did ample justice to all that was set before them. The work was done on quilts and garments for a children's home in the East.

Will McKeen arrived Saturday with his sister, Miss Kate McKeen, and nephew, Charles Edmond. Mr. McKeen has been expected for some time to take charge of the grocery store owned by H. C. Powell and himself. Miss McKeen will be here until Wednesday, when she will go to San Fernando.

Mrs. Blosser who has been visiting in Los Angeles during the past week, has returned to the home of her daughter, Mrs. N. Carmichael.

Wm. Mills has moved into the house which he recently built on his five acres east of town.

Mrs. Sarah Mathews of Santa Ana spent last Thursday with her niece, Mrs. Henry Otto.

S. Penfold who has been ailing for the last two weeks is able to be out again.

Mrs. Magarity is spending a couple of weeks with friends here, Miss C. M. Kimball and Mrs. Sarah Bill.

Mrs. N. Carmichael is spending a few days in Los Angeles visiting friends and relatives. She expects to return home Wednesday.

Miss C. M. Kimball and Mrs. Sarah Bill visited relatives in Tustin last week.

CONTROLLER BAY CLAIMS GIVEN UP BY RICHARD RYAN

Claims Created Furore When
Filed on—Believed Taken
for Guggenheims

WASHINGTON, Nov. 7.—Secretary of the Interior Fisher announced yesterday that Richard S. Ryan, president of the Controller Railway and Navigation company of Alaska, had relinquished what is known as the Canyon Creek line terminal tract on Controller bay.

This tract contained two of the three homestead claims located by Ryan in the limited portion of the Chugach national forest, fronting on Controller bay and occupied practically the entire reserved eighty rods of land lying between the claims of J. J. Ryan and A. L. Schur, both of which claims, it is conceded, were taken in the interest of the Controller Railway and Navigation company.

The law requires that, between all claims adjoining water front, eighty rods shall be reserved for entry. The present relinquishment, therefore, removes from the public domain any claim by Ryan to the eighty rods intervening between the J. J. Ryan and the Schur claims.

The Ryan claims are the ones that stirred up such a contest in congress last summer when Senator La Follette and others brought the charges that a portion of the Chugach national forest had been withdrawn so that Ryan might file his entry. The charge was made that Ryan really represented the Guggenheims and that by securing control of the Controller bay water front the Guggenheims would dominate the

THE STORE THAT GIVES GOOD VALUE

California: It's History and Romance

By JOHN S. McGROARTY

BOOK that you will SIT UP NIGHTS to READ

It is a one-volume story of the most wonderful state in the world told in the language of a poet. Every phrase is a song; every statement is a fact. It thrills and thrills and thrills.

Eloquent, yet concise; beautiful, yet solid; fascinating, yet instructive; it contains all that is essential and is a portrayal of California by the Golden State's most gifted and best loved writer.

Adapted to youth, middle-aged and elderly persons alike, it meets the universal demand of all for a single-volume history of California. It is very valuable to the student, not only for the knowledge it contains but also as a study in word-painting and phraseology.

This work has been reviewed and passed upon by the most eminent historians and literary critics of California, to their complete satisfaction.

In one volume, thoroughly indexed, beautifully illustrated, splendidly bound and printed in good readable type, it is the most valuable book on the Holiday counter. Be sure that some member of your family receives it as a Christmas remembrance in order that it may have a place in your home.

Written by a Californian, published by a California House, it fulfills in every respect your choicest demand. Sold at all bookstores, or address

CITY BOARD OF HEALTH URGES BOND ELECTION

We, the Board of Health of the City of Santa Ana, realizing the fact that pure water and adequate sewerage are the two most important factors for the growth and upbuilding of any city; and knowing that a large portion of the city, for lack of fall, cannot have sewerage with the present outlet, and that, during the month of October, there were forty houses built within the city, many of which were compelled to put in cesspools or sewerage; and, believing that the citizens of Santa Ana know that the above conditions exist, and that an opportunity is now presented to the Board of Trustees of the City of Santa Ana whereby they can obtain an

outlet to the ocean at a nominal cost; therefore be it
Resolved, That we, the Board of Health of the City of Santa Ana, cannot too strongly urge the Honorable Board of Trustees of the City of Santa Ana to immediately call an election to vote bonds in sufficient amount to put in an outlet to the ocean and connect the present sewer system with the same.

Santa Ana California

useful occupation, you cannot refuse a license, but there is law to stop a useful occupation if it becomes a nuisance."

City Clerk Tedford here sprang a surprise by reading an ordinance that said that laundries must have a permit from the City Trustees.

McPhee: "The city marshal should not have issued the license. The city health officer says that laundry would be a menace. I thought this matter was to be left to this board, but the city marshal has issued a license."

G. W. Minter spoke against having any laundry, Japanese or otherwise, near the center of the street.

W. A. Zimmerman said the Orange County Savings Bank is spending \$60,000 on its new building, and now before the work is done smoke-stacks from the vulcanizing works end smoke into the building. A fire started there would sweep the central part of the city.

Black said the Japs have stuck up additions. "How do they get permits for that," asked he, "I can't get permits for such work."

Heathman said that since the clerk had read the law he could see that the license is irregular, since it was issued by the marshal and not the City Trustees.

H. C. Head remarked that some years ago the city Board of Health burned Chinatown. He said he thought that if the city revokes the license the Jap will not go into court.

City Marshal: "I was informed by the clerk and attorney that I would have to issue the license. The license does not call for any particular location. As to the vulcanizing works, it requires no license. The law requiring laundries to get licenses from the board has never been used."

By unanimous vote, the board ordered the license revoked.

Change in Charges
Alderman moved that a new schedule of charges for making water taps be adopted. Carried. An amendment of the ordinance will follow the motion, Alderman and Reid to be a committee to aid in drawing up the amendment.

Reporting that a sewer on D street for 600 feet from Fruit to Stafford would cost \$215 and accommodate nine houses, Alderman favored putting down the sewer if the city can afford it. McPhee called attention to the fact that the promise for a sewer on West Walnut and West Pine had never been fulfilled. Reid said he is ready to call for bids for the latter pipe. The clerk was instructed to advertise for a carload of six-inch sewer pipe.

H. C. Head presented a petition asking for the graving and oiling of Hickey street from Broadway to Riverline. Nearly all of the property owners signed the petition. It was granted, provided all sign it.

Alderman and Reid were named a committee to investigate the feasibility of changing a fee for sewer taps.

Graveling Wanted
McPhee said owners on Flower street near Highland want to gravel the street and want the city to help pay for the gravel. It would take seventy-eight loads of gravel. No action was taken.

McPhee said that it had been suggested that if the city would provide a guard Sheriff Ruddock would send out a gang of hoboes to clean up the streets of weeds and particularly Johnson grass. McPhee's suggestion went into a motion and was carried.

Offer Accepted
An offer from E. H. Halesworth to take care of all three city parks at \$50 per month, he to hire all extra help, was accepted.

Ray Wilson was given permission to stand a lunch wagon on Main street in front of the Smoke House, from 6 p. m. to 12.

Handsome New Coats

Showing the LATEST IDEAS in Fall Apparel

Exclusive Models in rough woolens with big fancy collars
And big line of Staple Black Broadcloth Coats

Three new shipments of Coats enables us to show you a splendid assortment of the new Fall Styles. These coats embody the latest ideas of garment makers: Big sailor collars, some of them as large as shawl collars, deep cuffs, wide lapels, and trimmed with different sizes of ornamental buttons. Rough woolens are popular, and we show coats in grays, browns and blues with collars and cuffs in harmonizing shades. And you do not have to pay a small fortune for these coats; we price them honestly at \$17.50, \$20.00, \$22.50, and \$25.00.

If you are hunting for a staple, serviceable coat for all-around wear, we have a big line of black broadcloth coats, full satin lined, carefully tailored, made of splendid material at the remarkable special price of \$15.00. This coat is stylish on all occasions, and we can assure you that there is no better value on the market today. We have them in all sizes up to 49 inch bust measure.

New Silk Fringe

We have a full line now of black silk fringe, plain, and single, double, and triple knotted, widths up to 5 1/2 inches. Prices 50c, 60c, 75c, \$1.00 and \$1.25.

Cream and white silk, knotted fringe, at 50c, 75c, \$1.00 and \$1.25.

New Ball Fringe

Our new Ball Fringe is now here. We have it in black, and white, silk covered, at 40c yard. The gold and silver ball fringe is priced at 75c yard. Beaded fringes, in gold, silver, and white at 90c a yard.

Beaded bands in many widths from 40c to \$2.50 a yard.

Rankin Dry Goods Co.

107 WEST FOURTH

410 NORTH MAIN

asked for a sidewalk on the west side of Bush street between Ninth and Tenth street, along the high school grounds. The petition was granted.

Is Postponed
The clerk read a letter from J. N. Anderson accompanying a petition asking the board not to continue the plan whereby bicyclists may ride the streets of an outside district when the streets are impassable. Anderson stated that there were 220 men and 112 women on the petition, and out of all those who were shown the petition not over a dozen refused to sign, which, he said, would indicate that a vast majority are against the law.

When this matter was reached last night it was getting late, and on Alderman's motion action was ordered delayed until the next meeting.

Resignation Quits
The resignation of City Engineer George Balderston was received and accepted. Not a word was said as to the reason for the resignation and not a word was said as to his successor.

On motion it was ordered that whenever any department of the city government plans an expenditure of over \$100, it must get the permission of the trustees before making the expenditure.

Placing of Lights
It was concluded to meet early Friday evening in order to go over the map showing where the lights under the new Edison contract are to be installed. The company wants to get into the work that the system may be running on Jan. 1. In order to make way for the new lines, a good deal of trimming and tree cutting will be necessary. Trees that shade lights will not be tolerated. The trustees have absolute power over trees on parkings. The contract with the Edison company is that the city shall clear the lines and lights. The Edison company to pay the bills.

McPhee said there are some trees on Bristol, French and at the corner of Van Ness and Hickey that need cutting.

On Ey's suggestion the street superintendent was ordered to cut the two big pepper trees on Sycamore street on the Central school grounds.

G. W. Smith, who was present, offered to cut the trees for \$1 apiece and the wood. His offer was accepted.

On motion all property owners are to be given notice through the papers to trim their trees, and if they do not do it the city will do the trimming.

The request of Miss Beulah McClay to do away with the trees at the corner of Fifth and French was granted.

Urges an Outfall
A resolution of the Board of Health urging the city to vote bonds for an outfall sewer was read and filed. The resolution appears elsewhere in the Register today.

No More Camping
City Marshal Wilson reported that there was much complaint because the hitching ground at French and Second is used by campers who sometimes become a nuisance. The board instructed him to prohibit further camping on the hitching grounds.

An ordinance to prohibit the standing of rental autos on Fourth between Bush and Sycamore was not met with favor. While it was referred to the city attorney, it probably will never be passed.

Bridges Dangerous
Street Superintendent English reported that the Main and Hannah street bridges are in a dangerous condition. They are almost worn

through and a horse may stick a foot through at any time, and the city would be responsible for any such accident. Ey favored putting on a gravel and oil surface. Grubb and Alderman were appointed a committee to investigate and report at the meeting Friday night.

NEWBRO'S

HERPICIDE

A Scientific Achievement

—The discovery and turning in an alarm of fire makes possible the heroic work of the firemen in putting it out.

Undiscovered, a fire spreads with amazing rapidity, destroying everything within reach.

The discovery of the dandruff germ was of inestimable value to mankind, but only because it paved the way for the greater service, the discovery of Newbro's Herpicide.

Dandruff is contagious, and its spread is checked by the use of Herpicide. This delightful scalp dressing kills the germ, and prevents the hair from falling. It stops that itching almost instantly.

Herpicide is the one standard and original dandruff germ destroyer. Any other preparation making this claim is an imitation.

Recommended and applied by first-class barbers.

Send 10c in postage or silver for sample and booklet to The Herpicide Co., Dept. R, Detroit, Mich.

One dollar size bottles are guaranteed by all druggists.

Rowley Drug Co., Santa Ana, Tustin Drug Store, Tustin, special agents.

Entered in the Postoffice in Santa Ana, Cal., as second-class matter.

A GOOD TIME TO PUSH

Santa Ana is growing faster right now than ever before. It must be so, for more houses are being built right now than ever before, and all of them are occupied as soon as completed and no others are becoming vacant.

The very air of Santa Ana and all Orange county is vibrant with prosperity. Much real estate is changing hands at good prices—though all of it will within ten years be worth twice the prices it is bringing now,—and most of the transfers mean planting or building or improvement or development of some kind.

All the stores and banks report good business, and the newspapers at least look prosperous.

Stand on North Main street any day and you will see vans and wagons laden with household goods coming in from the north. At the railway freight houses and at the transfer companies' warehouses the same sort of activity is to be found.

When the car of progress is moving its easy to push it along fast, although it's sometimes hard to start it rolling when it is standing still. Now is a good time to push.

POPULATION CLAIMS

Figuring five people to each water tap, San Bernardino and Ontario are making some tall population claims—20,000 for the former city and 6000 for the latter.

On this basis the population of Santa would figure out at 9085, which is not far from correct. The census gave us 8425, and it seems reasonable to believe that the census takers missed some people and we know that we have grown some since the census of 1910 was taken. It seems hard to believe, however, that Ontario has grown from 4000 to 6000 in the past year.

The Riverside Press has taken the pains to look up the matter of water connections for the users of water from the domestic systems in Riverside and finds that in round numbers there are 4000. "The municipal limits are large here," says the Press, "taking in considerable ranch territory that is not yet supplied with water under pressure. The ratio of population to water connections here, therefore, would be higher than in either of the other cities named, higher in fact than in any other city in Southern California. But even here the ratio of five to one would certainly be altogether too high. That would indicate a population for Riverside of 20,000 and we know that we haven't any such number of people as that. When the census was taken we ran a little over the 15,000 mark, and probably have 16,000 now. It would be absurd and ridiculous to claim 20,000; and it is just as absurd for other cities to inflate their claims by using a system of computation that is not justified here.

"It is evident that a ratio of four people to one water connection is all that is safe to figure on here and it is doubtful if as high a ratio as that would be legitimate in a compact city like San Bernardino or in a city like San Diego without any farm population."

THE GREAT WEALTH IN CONSERVATION

Announcement that the government will sell 300,000,000 feet of timber in the Klamath forest reserve next spring, at a minimum price of \$3.25 per 1000, calls attention not only to the immense value of the timber holdings of the government, but to the benefits and profits of conservation and the wisdom of reforestation.

It is estimated there are 10,000,000,000 feet of timber in the Klamath reservation and, estimating this at the low price mentioned above, places the value at \$32,500,000. This amount would pay the interest on the National debt for a year and a half, pay for one of the modern monster battleships, and half the expense of construction of another. It would defray the expense of the government of Oregon for more than three years, would pay one-third of the cost of maintenance of the navy. And yet this is only one of the great forest reservations of the nation.

The Trinity forest reserve in California contains about the same amount of available timber as the Klamath reserve—10,000,000,000 feet. Estimating the value of this timber at the minimum price mentioned above, the disposal of it would raise a sum sufficient to pay the expense of the government of California for one year and eight months, figuring that expense at the amount required for the

EVERY ALLEGED JUSTIFICATION FALLACIOUS

BY E. T. LANGLEY.

I am old enough to remember when those in the liquor traffic justified their actions on Scriptural grounds, but that position did not last very long. They then justified their position from a medicinal standpoint, but it was not very many years until it was learned that the best educated, and most un-to-date physicians had abandoned the use of liquor almost entirely and admitted that there were other remedies that could take its place and were less injurious. Liquor dealers then took the position that their traffic was a matter of personal liberty; that a man was being deprived of his personal liberty by being deprived of the personal use of liquor or denied the right to vend it. But that old position they were soon driven out of, because I think, it is conceded everywhere that a man has no personal liberty to do anything that injures his neighbor.

And now the courts and good people everywhere have decided that there is no good that comes out of the drink, and that it is all evil, and that personal liberty does not give a man the right to sell it.

Under the common law, a man has no right to sell intoxicating liquors; must first degrade the community to his own level before he will grant him a license to sell, and he is then selling without a right under the common law or any law of the United States.

Defendants of the liquor traffic then claimed that it was justified as a means of producing revenue; that the license that was paid to the commonwealth justified the traffic, because the revenue derived from it was of sufficient importance to warrant what the world believed to be wrong.

I believe no saloon ever paid license enough to bear the cost that it was to the commonwealth in which it existed, on account of the criminal prosecutions that were brought about. I have had personal experience, having made statistics in two different counties, one in Iowa and one in South Dakota, compared the criminal costs of the courts under prohibition and under license, and in every case the balance has been against the license; and that does not refer for a moment to the pauperism, insanity and expenses in that line that grow directly out of the liquor traffic, but it is only

fiscal year ending in 1910, which was \$17,197,005. The value of this timber is so great that promoters, planning the Humboldt & Eastern Railroad said that if the government would sell and allow the cutting of 3,000,000,000 feet of timber in the Trinity forest reserve the railroad could be built and would be a paying proposition from the start.

These are only a few examples from a mass of comparative figures and facts which could be published, to emphasize the value of timber holdings, and in this regard it is well to understand that the price of \$3.25 per 1000 feet is a minimum at which no private holders of timber land would sell.

No citizen who acquires information as to the value of the government timber holdings will withhold support from the conservation and reforestation policies. If conservation and government control had been put in force sooner in the life of the West, millions of dollars worth of timber land would be under the control of the Federal authorities which is now held by timber barons, through taking advantage of lax laws or negligence of the government or, as often, by direct ignoring of all laws and question of right.

The policy of reforestation is being followed by the Forestry Service, and each year young trees are being transplanted or seeds sown in sections devastated by fire or denuded by lumbermen. Protection of young trees is a condition in the contract with every purchaser of government timber, and the tracts cut over are thus assured of a good new stand.

In most of the European countries a like system has been followed, which allows the cutting of only a certain percentage of mature trees, at stated time intervals. The result is that no tract is ever entirely denuded, but is constantly covered with trees in various degrees of maturity.—Sacramento Bee.

McVEAGH OPPOSED TO ALDRICH'S BANK PLAN

WASHINGTON, Nov. 7.—Secretary of the Treasury McVeagh announced today that he was unalterably opposed to the proposition of having National banks control the stock of other banks through a holding company. He declared that the permitting of such a system invited the concentration of the country's banking power in the hands of a few.

McVeagh further stated that the currency reform plan advocated by Chairman Nelson W. Aldrich of the National Monetary Commission must be modified before he will approve it, and that he intends to urge Congress to adopt a modification of the Aldrich scheme.

Wheel Spokes

Wagon wheel spokes may be made to fly tight by splitting the tennons with a chisel and driving wedges into the splits.

the costs of the criminal courts alone, so I unhesitatingly assert that the licenses received never pay the costs of criminal prosecutions engendered by the traffic.

I think the liquor interests are now in the last ditch fighting, and their excuse is that it might as well be licensed and get what revenue there is in it as to have the law violated and the sales made without the license. I assert that that is a cowardly position to take, and that no one takes that position except those who are violating the law themselves and urging that as an excuse to be licensed to do the thing that is unlawful. I think that people generally are not paying much attention any more to that last ditch struggle and doctrine of the liquor traffic. It is not only cowardly in people to surrender to such position, but that doctrine would repeal all the laws that we have against crime, because there is no law that I know of that prevents crime, and I have never before heard of any other people who are violating the law asking to have the law repealed because they violate it.

And now, applying this last doctrine to the Fifth District, permit me to say that if there has ever been any violation in that district of the ordinances against the sale of intoxicating liquors it has been in the little village of San Juan Capistrano. At least I have never heard of it being violated elsewhere in that district. Now, even if Capistrano should continue, if they have violated the law, to violate it, would that be any excuse for putting a saloon in the beautiful law-abiding little village of Tustin or anywhere else in the Fifth District, even up against the line of the municipality of Santa Ana, thus practically nullifying the prohibitory law of this city?

If I am right in the position that I take as to the Scriptural grounds, the excuse for medical purpose, that of personal liberty and that for revenue, it would be a bad thing to have saloons in the Fifth District; and I assert that because the law may or may not have been violated in that district, that is no excuse whatever for the people to degrade their community to the extent of granting license anywhere in the Fifth Supervisorial District.

AUTO RACES PUT HERRICK AS THE KING OF DESERT

PHOENIX, Ariz., Nov. 7.—The total elapsed time of the cars in their finish here is as follows:

National, 20 hours 22 minutes; Franklin, 22 hours 54 minutes 53 seconds; Midland, 24 hours 21 minutes 24 seconds; Buick, No. 16, 26 hours 26 minutes 35 seconds; Pope-Hartford, 26 hours 9 minutes; Cadillac, 27 hours 34 minutes 22 seconds; Lexington, 28 hours 12 minutes; Maxwell, 29 hours 1 minute; E. M. F., 32 hours 35 minutes; Cole, 34 hours 11 minutes. The cash prizes in the race, including accessory prizes for the three winners, are as follows: National wins \$4370, Franklin wins \$1070, Midland wins \$450.

Herrick King of Desert Road

PHOENIX, Ariz., Nov. 7.—Harvey Herrick is hailed as king of the desert road after driving an automobile to triumph for two succeeding years over the grueling, scorching sands of the western Sahara. He piloted the National to victory yesterday in a splendid dash that landed his car in the Phoenix fair grounds two hours and forty-five minutes ahead of his nearest competitor. His victory establishes a world's record for windings, he having been first over the line in four open sanctioned road races within a year, beginning with the Phoenix road race of last year, next the Bakersfield road race, and the third the Santa Monica free-for-all.

A special feature of the big desert race was the wonderful way in which the Pope-Hartford and the Cadillac made up time after being laid out by the roadside, retrieving to the extent that the Pope-Hartford was fifth in the race with the Cadillac but a little behind. Ralph Hamlin, winner of second place for the second of the Phoenix races, made a plucky race for first.

The interest in Phoenix in the finish of the great race was intense. The bulletin board was constantly surrounded by an immense crowd during the morning hours and each of the cars was given a rousing reception as it rolled into the grounds and circled the grand stand in front of the thousands who were waiting the arrival of the desert speeders.

Zapatistas Are Routed
CUAUTLA, Mex., Nov. 7.—Thirty Zapatistas were killed yesterday in an encounter with federals who had been sent to dislodge the rebels from the Hacienda Colon. The federal loss is not reported.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

STRYCHINE WAS CAUSE OF DEATH

The inquest held by Coroner Win-bigger upon the body of Yohzo Kurijama, who died yesterday in a camp in the Matthews walnut orchard on East Fourth street, developed the fact that he died of strychnine poisoning. Whether the poison was taken with the intention of committing suicide was not shown. There is a possibility that it was taken by mistake instead of medicine.

The friends of the dead man testified that he got the bottle in Santa Ana yesterday morning. Half of it was gone when Dr. Ball arrived at the tent and found the man dead, the half-empty bottle on the bed beside him.

MRS. VERMILYEA SEEMS SECOND MRS. GUNNISS

CHICAGO, Nov. 7.—Mrs. Louis Vermilyea, charged with the murder of Policeman Arthur Bisonette who died at her home recently and suspected of poisoning nine other associates and relatives within the past six years, is reserved and wary in her quarters in the jail hospital today, in marked contrast to her tearful, protesting attitude when removed from her home.

The police are of the opinion that in Mrs. Vermilyea they have found a prototype of Mrs. Gunniss, perpetrator of the notorious Indiana murders which horrified the country two years ago. Like Mrs. Gunniss, they argue, Mrs. Vermilyea is physically stout and florid, and mentally takes a morbid delight in all matters pertaining to death.

"She actually seemed to enjoy working around corpses," declared M. Block, undertaker at Barrington, Illinois. Mrs. Vermilyea's former home. "I never employed her, but she told everyone she worked for me. At every death she would be waiting at the door to take care of the corpse."

The suspected woman is still very weak from pneumonia and has not been subjected to a detailed examination.

Beginners' Spanish Class.
I will organize a beginners' class in Spanish, Tuesday, Nov. 7, at 8 p.m., at my home, 329 West Tenth. Tuition, \$3.00 per month in advance. Business people and clerks especially should know Spanish. It is easily learned and a very attractive language. Mrs. Olive Lopez.

THIS HORSE OF ANOTHER COLOR

Fancher Tells True Story of the Accident to the Maxwell

Claude Congdon, of the Maxwell agency in this city, has personally verified a report published in the Los Angeles papers, which puts a very different light on the published story of Roger Stearns' heroism in sacrificing his chance of winning the Los Angeles-Phoenix race by stopping to rescue Fancher and Smith, who were pinned under their overturned Maxwell, near San Diego.

Mr. Congdon interviewed Earl Fancher, who was the mechanic of the Maxwell, upon his return to Los Angeles. The nature of the accident, Fancher says, was misunderstood by the correspondents. As he reports the affair, the Stoddard-Dayton and the Maxwell cars had an encounter in the darkness near Lemon Grove, about eighteen miles beyond San Diego.

The Maxwell had been in the lead until within a short distance of San Diego, when it stopped to change a tire and the Stoddard-Dayton shot ahead.

Near Lemon Springs there is a sharp turn in the road. Just around the corner, Roger Stearns stopped the Stoddard-Dayton in the middle of the road to make some minor repairs. The Maxwell came whirling around the corner and its lights blazed full on the big car blocking the road.

In order to avoid smashing into the Stoddard-Dayton, Smith made a violent lurch and the Maxwell toppled over an embankment, turning turtle. It rolled clear over Fancher, rolled over again and stopped with its wheels in the air, with Smith pinned underneath. Fancher was also pinned, the car resting on one of his arms and one of his legs. He was unconscious, but Smith was unable to call for help.

Fancher says that when the car had been righted, Smith got a volunteer mechanic from the car and went on amid the cheers of the spectators. Fancher was helped back to San Diego, whence he came home.

His physicians say that a bad sprain is the worst of his injuries. Mr. Congdon explains that after the Stoddard-Dayton passed the Maxwell the latter had second place and second time, and that if the Stoddard-Dayton had pulled out of the road when it stopped for repairs, the accident to the Maxwell would have been avoided and it would then have had first place and second time.

GOOD ADVICE FOR SANTA ANA PEOPLE

People in Santa Ana who have constipation, sour stomach or gas on the stomach, should use simple buckthorn bark, glycerine, etc., as compounded in Alder-ika, the new German appendicitis remedy. A SINGLE DOSE brings relief almost INSTANTLY because this simple mixture antiseptizes the digestive organs and drains the impurities. Rowley Drug Co.

Young Lady Travelers

The Young Lady Travelers will meet with Miss Jennie McFadden, corner Main and McFadden, Wednesday afternoon. All members who cannot be present are asked to notify the hostess.

The American Sahara

The desert is not listed as one of California's many attractions. You would look in vain for a description of it in the numerous publications of the transcontinental lines, or the various chambers of commerce. This great arid region covers 70,000 square miles in the state of California, and extends into Nevada, Arizona and Mexico. Upon the maps and folders it looks very much like the rest of California, unless you happen to notice such unusual names as Death Valley, Furnace Creek, Funeral Mountains, Cactus Flats, Oasis, Twenty-nine Palms, and other appellations of similarly suggestive omen, that you perchance give the country a passing thought. But a vague idea of the American desert can be gathered from the window of a railway coach. To know it thoroughly requires years of travel and exploring.

The great desert waste has been well named—"The Land That God Forgot." Once you enter its boundary, hardships, suffering and death are always with you, the rough grave of the lost prospector is frequently encountered along the trails, and the winds are ever uncovering the bleached bones of its thirst mad victims who gave up the fight against the heat of its merciless sun and the grip of its deadly silence.

To most people this desert is a land to be shunned, dreaded, and feared, but to the geologist, prospector and lover of nature, it is a vast treasure vault, where "the land is as new as the day it was made," a land of fascination and surprise. There are to be found strange, wonderful

things that exist in no other region but the American Sahara.

LOU WESTCOTT BECK.
Mr. Beck can be heard in this illustrated lecture tonight in Spurgeon's Hall. The lecture is under the auspices of the Congregational Intermediate Society, and every one hearing this lecture is assured a rare treat.

Ushers Were Chosen

Last night the official board of the First Methodist church held its usual monthly meeting in the church, with a good attendance. After routine business had been attended to, the board elected the ushers for the coming year, with Theo. Winbiger as chief of the ushers for the morning and Joseph B. Head as chief of the ushers for the evenings.

It was announced that the first quarterly conference of the Methodist church would take place on Nov. 1, at the church, with Rev. Alfred Inwood, district superintendent, presiding. The meeting will be held in the evening, and will be preceded by an all day meeting of the Methodist ministers of this district.

Elected Officers

Hermosa Chapter, O. E. S., last night elected officers for the coming year as follows: Mrs. George Balderston, worthy matron; C. F. Crose, worthy patron; Mrs. W. L. Grubb, associate matron; Mrs. George Whidden, secretary; Mrs. Mary Rowell, treasurer; Mrs. Cora Cavins, conductress.

The next meeting will be a little out of the ordinary, the members of the Past Matrons' Association having accepted an invitation to exemplify the work of the chapter.

Travelers' Section No. 2

Travelers' Section No. 2 of the Ebull Club met Monday afternoon with Mrs. S. H. Finley, 1633 East Fourth street. The work was a review of Kenilworth, begun by Mrs. A. M. Deering and concluded by Mrs. Dr. J. E. Paul. A goodly attendance and a pleasant time marked the gathering.

Has Opened Studio

Eugene B. Brown has established a studio in Chandler's music store, where he will receive students for piano instruction.

Philharmonic Rehearsal

Tonight the Philharmonic will meet at the First Congregational church for rehearsal. The hour of meeting is 7:45. It is hoped all will be promptly on hand.

For Husband's Birthday

Mrs. Elmer B. Burns last night was hostess to the members of the choir of the First Baptist church, in a surprise party for her husband, given in honor of his birthday.

The time was happily spent in various diversions, including music. The affair resolved itself into an impromptu musicale, almost every one present taking part, so there was no lack of vocal or instrumental numbers.

Mr. Burns was altogether surprised, notwithstanding had the faintest inkling of the delightful party planned for him. The evening ended very pleasantly with delicious refreshments served by the hostess.

Those present besides Mr. and Mrs. Burns and family were: Rev. and Mrs. Otto Russell, Mr. and Mrs. Percy Lusk, Mr. and Mrs. Lou P. Hickox, Mr. and Mrs. L. W. Van Cleave, Mr. and Mrs. Frank Harris, Mrs. C. E.

French, Misses Ethel French, Emeline Petersen, Ada Borden, Meme Havens, Josie Alexander, Mr. Verne Williamson.

Entertained Chevaliers

The ladies of Santa Ana Canton last evening entertained the Chevaliers of Santa Ana Canton, No. 18, with a 6:30 chicken dinner. This was in accordance with what has grown to be an annual custom, the ladies always giving a supper of this sumptuous character after the Canton members have returned from the autumn I.O.O.F. encampment.

Autumn leaves, Virginia creepers and honeysuckle were used in adornment of the tables and the electroliers, a pretty autumn effect being produced.

There were nearly one hundred guests seated at the table, which was loaded with all the accessories of a chicken dinner, and the merry party sat around the board, cheerful chat and gay laughter abounded.

Following a brief business session of the Chevaliers, a social evening followed that was highly enjoyed.

At Mrs. Rankin's

Mrs. J. H. Rankin's home was the meeting place yesterday for the ladies of the Travelers' Club, Number One. After the study hour, a social time was enjoyed during which delicious refreshments were served.

Snowed for Miss Borden

Mrs. W. H. Spurgeon recently entertained a young ladies sewing club with Miss Helen Borden as guest of honor. She was showered with aprons.

The guests of the afternoon were Mrs. Hugh Plumb, Misses Hazel and Marvel Baker, Lena and Hazel Thomas, Shirley Thomas, Ethel Roper, Florence Yoch, Amelia Edgar, Florence Mullinix, Helen McKeever, of Los Angeles, and Helen Borden.

Musical for Miss Petersen

Miss Emeline Petersen was the guest of honor at a recent pleasant musicale at the home of Mrs. J. A. Harrison, the hostess being assisted by her daughters, Misses Elsie and Gladys. Ferns, red hearts and cupids were used in house decorations. Misses Harrison, Petersen, Messrs. Percy Rice, Lloyd Sharp and L. P. Hickox rendered vocal numbers. C. A. Gustlin and James Willis Rice were accompanists to Miss Petersen in one of her numbers. Miss Ruth Dearthoff also accompanied. Instrumental numbers were given by Mr. and Mrs. James Willis Rice and C. A. Gustlin. Twenty-five guests enjoyed the evening which was closed with the serving of dainty refreshments.

DANDRUFF AND ITCHING SCALP YIELD TO ZEMO TREATMENT

Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will cure DANDRUFF AND ITCHING SCALP.

This remedy is ZEMO, a clean, refined, penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it.

A shampoo with ZEMO (ANTI-SEPTIC) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and scurf. Do not hesitate, but get a bottle of ZEMO today. It acts on a new principle and will do exactly what we claim for it.

Sold and endorsed in Santa Ana by Dean's Drug Store.

Tickets for the Ebull luncheon can be purchased of Mrs. E. W. Wallace, 421, East First, until after Nov. 14 and on the 15, 16 and 17 at Hatzfeld Parsons Drug Store; sale closing on that date. Guests admitted only as substitute for member.

POMONA GROWING IN POPULATION 20 PER CENT A YEAR

City Superintendent of Schools Murphy said at a recent public meeting in Pomona to discuss school bonds: "From data at hand in the conduct of our schools and from building and other sources of information, we find that for two years Pomona has increased in population twenty per cent each year. Now supposing the population increase drops down to ten per cent a year, you will find that by the national census of 1920, Pomona will have a population of 30,000. Those may seem pretty tall figures, but if any one had predicted, along in 1898 and 1899 that Pomona would have 12,000 population by 1912, he would have been laughed at for his supreme optimism."

GROWS HAIR AT 65 YEARS OF AGE

Dear Sirs: "I heard of PARISIAN SAGE, and as my head would itch a good deal, I thought I would try it. I never used any remedies before and was bald on top of my head."

I am using the third bottle and have a lot of hair where I was bald. I would like you to see the new hair sprouting from my head. The itching in my scalp quickly disappeared. I am 65 years old and have been at the Bazaar 51 years.

Wm. A. Hopper, Auctioneer Harkness Bazaar, Ninth and Samson Sts., Philadelphia, Pa.

Large bottle of PARISIAN SAGE 50 cents. Guaranteed by Rowley Drug Co. for dandruff, falling hair and scalp itch. Puts life and beauty into faded hair and is a delightful hair dressing.

OREGON STARTS NORTH—WILL CALL AT SOUTHERN PORTS

SAN DIEGO, Nov. 7.—At 5:30 yesterday afternoon the battleship Oregon steamed out of the harbor at low tide and began her northern trip, which she will end at Puget Sound. The first port of call will be Redondo, next off Venice, and in succession Santa Monica, Santa Barbara, Monterey and San Francisco.

The Cause of Constipation

Constipation is, in some cases, the direct result from a torpid or slow acting Liver, brought about by the withholding of the flow of bile. The condition is commonly allied with more or less indigestion and dyspepsia, partly due to the constipation itself.

Many persons have found it comparatively easy to overcome such conditions with a treatment of Rexall Liver Salts.

In our judgment, we feel that this preparation is remarkably well fitted to overcome these conditions, and recommend them to you with the understanding that any money you may have spent with us for the preparation will be refunded in case there are no beneficial results.

In two sizes, 25c and 50c. Dean's Drug Store. The Rexall Drug Store.

NO JURY CHOSEN YET IN HYDE MURDER CASE

KANSAS CITY, Nov. 7.—Twenty-four veniremen were examined in the Hyde murder trial here yesterday, but last night there were no more takers in the box than there were when court adjourned Saturday. Harry Waldron of this city was accepted by both sides, but George A. Smith, who qualified a week ago, was excused on account of illness.

DR. BEHR, RICH PASADENA, IS FINED \$1000 FOR SMUGGLING

TRENTON, N. J., Nov. 7.—Judge Reilbatt in the United States District Court yesterday fined Dr. Arno Behr, a wealthy resident of Pasadena, \$1000 for smuggling jewelry into this country, at Hoboken.

The fine was paid by Dr. Behr after he admitted that he had been abroad frequently and that he knew the customs laws.

RAILROAD EMPLOYEES TAKES 1 CHANCE TO 458 FOR DEATH

WASHINGTON, Nov. 7.—It's one to 458 that a railroad man will be killed on his job and 1 to 13 that he will be injured. The Interstate Commerce Commission's report of American railroad accidents in the twelve months ended on June 30, shows that ratio.

In that period 10,396 persons were killed and 150,159 were injured. However, only 386 passengers were killed. More than one-half of the total number killed were trespassing or stealing rides on trains.

Santa Ana Painless Dentists. 102 1/2 East Fourth St. Main 253.

COMPLETE JURY CHOSEN IN AXTELL MURDER CASE

STOCKTON, Nov. 7.—B. F. Hardin, a diary man, was chosen late yesterday afternoon at the alternate juror in the case of S. B. Axtell, former editor of a county paper, who is accused of the murder of Charles Sollars, a prominent business man.

District Attorney A. P. Foltz, in his opening statement to the jury, declared that the prosecution expects to prove that the murder was deliberate, premeditated, malicious, cold-blooded, cowardly, that Axtell hunted for Sollars about the streets the morning of the shooting, and that he shot Sollars in the back without a moment's warning.

—Ladies' tailored suits at Gilbert's, \$15.00 and up; 100 different styles to choose from.

Talks On Tailoring

We want men of good taste and discrimination in clothes to come in and see some new goods we have just received—fancy chevrons and elegant and stylish "Killies."

These goods are the newest of the new fabrics for men's clothes—or for ladies' tailor-made suits. We don't make up ladies' suits, but will sell you the goods if you can't get what you want elsewhere.

And when you come to see these elegant suitings, we will show you some of our finished work, let you examine it thoroughly as to style, fit, finish, etc., and be convinced that it is as good as the best.

Cost no greater than for good, ready-made clothes, effect infinitely superior in elegance, staying quality and individuality.

Prices from 25 to 50 per cent less than those charged by city tailors; work and goods as good as the best, better than most.

Lutz & Co.

PUBLIC PARK PROJECT IS FURTHER DISCUSSED

What Our Neighbors are Doing in this Line—It's Up to Santa Ana to Take Time by the Forelock

When about to engage in a great enterprise it is the part of wisdom to look around and observe what others have done and are doing along the lines we purpose to travel. By doing so we may obtain information that will serve to save us much tedious preliminary work. We can then profit by our neighbor's example—emulate it if good and correct it if bad.

Los Angeles, being a large city great wealth, is able to do much in the way of parks and park improvements. Los Angeles possesses the largest city park in the world. This is Griffith Park, containing 2000 acres, and possessing great natural beauties. Then there is Elysian Park of broad acres and also a natural woodland. Then there are Westlake Park, Eastlake Park, Echo Park, Hollenbeck Park, South Park, and last and possibly smallest, but probably greatest of all in importance, is Central Park, in the heart of the downtown district. The Examiner says of this park:

"This park comprises but one square block, and still is visited by more people in one day than all the other parks of the city combined in a week. Central Park, as an asset of Los Angeles, possibly is greater than any other one institution or feature within the city. Probably very few of the thousands of people who come to Los Angeles every year to make their homes ever heard of Central Park. When they arrive in Los Angeles and take their first stroll through the downtown district, and catch a glimpse of the semi-tropical trees and the bright carpet of green and hear the music of the waters

playing in the fountain, the charm of the Southland metropolis is complete. Central Park is an attraction not only to the newcomer, but to thousands of residents, and especially those living to the west and southwest and within walking distance of the business district. Often clerks and others going to and from work will walk a block or more out of their way in order to pass through Central Park and perhaps rest for a moment beneath the spreading boughs and listen to the happy trilling of birds of sweetest note."

Of course, Santa Ana cannot have a 2000 acre park, nor invest \$20,000 in a conservatory in a park, as Los Angeles proposes to do, but Santa Ana can have a park that will rival Los Angeles' Central Park with all its beauties and enjoyments.

Los Angeles is fully alive to the value of parks as a drawing card. The City Club of that city has inaugurated a series of lectures on the "City Beautiful." These lectures will be given in the Temple Auditorium and will be free to the public, the City Club bearing all the expense incident to their delivery. The first lecture was given Saturday night, November 4, when J. B. Lippincott of the park commission spoke on "Projected Park and Boulevard Improvements." The city has entered into a number of projects for an improved park system. Lippincott has but recently returned from the East, where he made a special study of park matters.

Other Southern California cities are also devoting much time and money to parks and other public improvements. That Riverside's prosperity is due in great measure to the

part that her streets and parks have played in attracting a desirable class of residents, and that her future will depend materially on the attention that is given these matters, has been the contention of many citizens especially interested in this feature of municipal improvement. J. H. Reed, a prominent resident, after a tour of several weeks through Eastern and Southern cities, is more than ever convinced of the commercial value of public enterprises of this character, and returns enthusiastic over the results that have been achieved by Kansas City and Memphis. These two Southern cities, he declares, are the liveliest that he visited, and the credit for the prosperity that they are enjoying is attributed largely to the work that has been done in recent years in the way of beautifying the streets and parks. Kansas City has been spending about a million and a half on her parks and boulevards. The latter are improved at the expense of abutting property, and the value of such improvements is exemplified in the tremendous increase in valuation that has followed. After paying the assessments, property owners have realized an increase of from 40 to 200 per cent.

It would be like "piling Pelion upon Ossa" to mention all the towns and cities in California that are giving special attention to parks and their improvement. Suffice it to say that every town that is not standing still or going back is putting money, brains and time into those attributes of modern life.

Leaving out of sight the esthetic side of the park question, let us consider it from a financial viewpoint. For more people we have of the right kind, the more prosperity, the more business, which will benefit all—"the butcher, the baker, the candlestick maker." And the more tax-payers we have the less will be our tax per capita. This is a selfish view, of course, but selfishness is not a crime, nor is it necessarily a fault. Results are what count, and if they are good it isn't nice to hold an autopsy on the motives which produced them. Few of us are so philanthropic that we square all our actions with consideration of their possible effect upon the fortunes of our fellowmen. Most of us are looking out for Number One—with a big O. But when we do things that benefit ourselves we cannot avoid benefiting our neighbors. The man who raises two bushels of wheat where only one grew before is a public benefactor, although he may not have had that intent in the slightest degree. The more wheat we have, the more bread, and the more bread the more hungry brothers can be fed; and the more of any staple that is produced the more easily it is obtained by the consumer, for a large surplus inevitably forces down the price.

Santa Ana is not a factory town. It depends for its prosperity almost entirely upon the surrounding country, and it is most fortunate in being in the midst of one of the most fertile spots on God's footstool. Therefore its continued growth and prosperity are assured. This is well enough, but we should not let well enough alone when it can be bettered by a little effort and expense that would prove a highly profitable investment.

There are many beautiful private homes in Santa Ana, which furnish comfort and enjoyment and happiness to their occupants. But while they attract the eye and win the admiration of the stranger within our gates, they do not add materially to his comfort and pleasure. We must provide some public place for the recreation and enjoyment of this stranger—else he will camp beyond our gates—at Riverside or Anaheim mayhap.

Santa Ana is distinctively a town of homes. As has been said before, there are no saloon loafers here. The fact that 80 per cent of the school attendance here gets into the high school is a wonderful testimonial to the affluent condition of the people of Santa Ana. The general average in the cities is only about 15 per cent. It is true that there is no place like home, but there are some homes that are the last place their occupants want to go. There are many homes in this land of the free that are devoid of the common comforts of life. An attractive park would furnish a comfort and enjoyment that some homes lack, and as a man is made by his environment, a pretty park and its associations would act as a stimulant to better thoughts and desires and tend to encourage those on the under side of Fortune's wheel to make stronger and persistent efforts to get from under and rise to a nobler manhood and improved condition.

The metropolitan press tells us that immediately following the close of the record-breaking tourist season the rush of tourists from the north has begun, with a certainty that all records for this kind of travel also will be broken during the coming winter. The tourist season has been opened by residents of Western Canada and the Northwestern states. Many are coming by steamers from Vancouver and Seattle. Heretofore the tourists from these sections of the continent have been transient, and, after remaining during the greater portion of the winter, would return northward. This year, however, according to representatives of both rail and steamship lines, very few have brought with them return tickets. This fact is considered proof of the intention of a large percentage of the travelers to remain, either permanently or for an indefinite period.

The real tourist season, which will bring large numbers from the East, will not begin until December 1, but railroads report the western travel already unusually heavy.

Old Boreas has begun to blow his icy breath all over the North and East, and the railroads are making preparations to accommodate a tremendous migration to California during the winter months. Railroad officials estimate the expected traffic at 15,000 monthly. If this enormous number visit us in this year of grace, what may we not expect in A. D. 1915, when the great World's Exposition will be on at San Francisco? Let us "take time by the forelock" and be prepared to benefit by this exposition business.

CITIZEN.

ADVANTAGES OF A CHECKING ACCOUNT

In the regular course of business the depositor receives checks on many banks.

It is not necessary for him to present these checks for payment at the banks on which drawn, but he may deposit them here, and this bank collects them for him through the Clearing House, without charge, and credits them to his account.

Checks on out-of-town banks may be deposited in the same way, for collection.

OFFICERS: J. A. Turner, Cashier.

C. F. Mansur, J. R. Medlock, J. A. Turner.

THE FOUNDATION OF SUCCESS

To be genuinely successful a bank must consider the interests of its patrons as thoroughly as it does its own.

Upon this principle the Santa Ana Savings Bank renders its service to the public, and the fact that it has steadily grown ever since its establishment, both in volume of business and the confidence of the public, proves the high esteem in which it is held in this vicinity.

New accounts, both large and small, are invited.

HILL'S CORNER

Just "why is a comet" there appears to be no man that is yet able to find out, and what it is made of is equally obscure, but that "we have 'em" is evident to anyone who gets his eye on the real article.

Those wise people that own a telescope (or can borrow one) tell us that they are readily recognized by their tails.

Now that being a very singular mode of recognition we set out to do a little investigating and we found that the thing called a tail always pointed from the sun, when the comet was going towards the sun the tail followed the comet, but when it passed the sun and was going from it, the tail went before the comet, as no well regulated tail should or could do and thus we discovered that the so called tail was only the rays of the sun shining through the ragged edges and holes in the body of the comet and as the rays of the sun are not bright in themselves (being electric currents which are not light until they meet some obstruction) we also found that there is a great quantity of small particles (called star dust) floating through space and that they are so numerous that, when these electric rays of the sun stream through the holes in the comet they become concentrated on the dust and thereby become luminous. Any boy or girl can produce the same effect by making a hole in a dark colored window shade any bright morning through which the sun is allowed to shine and then "kick up a dust" with a broom or other suitable article and if you want to see a comet with two or more tails make two or more holes in the window shade. There are several rules to be observed in trying the experiment:

First. See that the room is considerably darkened, and then

Second. Be careful that the curtain is not of any considerable value, otherwise you might not enjoy the remembrance of the occasion.

LOS ANGELES PRODUCE MARKET

The market was featureless. Few changes marked the opening of the week. Receipts of staples were light over Sunday, and the tone generally was firm.

Arrivals of eggs from the outside were light totaling 50 cases, but receipts from local ranchers were liberal, some dealers were disposing of their stock below the figures quoted on 'Change. A drop in prices is looked for within a few days according to commission men.

Butter receipts were 19,551 pounds. No change was noted in the situation over last week. The market was firm at the prevailing prices. Receipts of fine creamery stock were light.

Cheese arrivals were 955 pounds. The market on all varieties ruled firm. There was a good call for full cream cheese.

Aside from apples, grapes and cranberries, little interest was manifested in the fruit market. Receipts along most lines were light, but the stock was of good quality and prices were well sustained.

Apple receipts were 7392 boxes. The only change in prices on apples was that of the Bellefleur variety, which sold from 95 cents to \$1.10 for 4-tier stock. There was a good call for the limited receipts of fine 3-tier Bellefleur apples, which sold at \$1.50 a box. Other varieties were in good call.

Arrivals of fancy table grapes were light, and the stock was quickly disposed of at round figures. Tokays were in good demand at 90 cents a lug box.

A carload of cranberries was received from the Middle West and put on the market at \$10.50 a barrel. Receipts are light at this season, and dealers are realizing good prices. At this season a year ago cranberries were selling around \$6.00 a barrel. A good movement is reported on the stock at the prevailing quotations.

Potato arrivals were moderate, 2377 sacks were reported in. The market continued in good shape and showed a marked firmness.

Sweet potato arrivals were only nine sacks. The market showed no improvement over last week. A poor passing trade was reported.

With light receipts the onion market continued firm. Arrivals were 302 sacks.

Green bean receipts were two sacks. There was only a light call for Limas, and wagon deliveries were sufficient to meet immediate demands.

Cauliflowers were in liberal receipt, most of the stock sold at \$1.25 a crate.

Green vegetables were in light receipt but in keeping with the demand and no changes were noted in prices.

Sauce for Chops

Mix with vinegar some grated horseradish, tomatoes, Spanish peppers and cook for 15 minutes. Strain through a sieve and serve with boiled meats or chops.

Tulare County Lands for Sale or Exchange

We represent the most productive section in the state of California. Tulare, the home of the farmer. \$110,000 paid to the dairymen last month for cream.

DEAD SEA WATER.

Its Buoyancy Not So Great as to Make Swimming Impossible.

In Jerusalem ridiculous stories are told of the impossibility of bathing in the Dead sea, and it is even said by the superstitious that no animals or vegetation can exist near it. The truth is that if Palestine belonged to any other power but Turkey the northern shore of the Dead sea would probably become a popular bathing station and health resort, as the chloride of magnesium which enters so largely into the composition of the water would be found to have medicinal and curative properties, says the Zion Herald.

So far as swimming is concerned, the excessive buoyancy of the water of the Dead sea simply renders it difficult for the swimmer to make much headway, but if care be taken not to allow the salt water to get into the eyes a swim is both feasible and enjoyable.

The Dead sea contains 25 per cent of solid matter and is, bulk for bulk, heavier than the human body. In a ton of water from the Caspian sea there are 11 pounds of salt, in the Baltic 18 pounds, in the Black sea 20 pounds, in the Atlantic 31 pounds, in the English channel 72 pounds, in the Mediterranean 85 pounds, in the Red sea 93 pounds and in the Dead sea 187 pounds.

FERRYING THE TRAIN.

One of the River and Harbor Sights of New York City.

One of the sights of the harbor familiar enough to those acquainted with the water front, but of never failing interest to the waterside strolling stranger, is the big railroad ferryboat that carries the Boston-Washington through trains around Manhattan between Mott Haven and Jersey City, and apparently this ride is as interesting to the people on the boat as the boat is to the people on the shore.

They just run the whole train on this boat, and then in fair weather the passengers get out to stretch their legs and take in the view. As the big boat comes along with the cars of the train aboard seen projecting out forward and aft on deck from under the hoods you see the passengers standing forward for their eight or ten miles water ride down the East river and up the north, or vice versa, through all the varied river traffic close at hand, while shoreward they have that marvelous view of the lower city. The boat is one of the city's notable river sights, and the trip on the boat itself and the view from its deck are still as wonderful as ever to the unaccustomed traveler.—New York Sun.

Rejected Compulsory Happiness.

In 1889 the inundation of the Yellow river caused great suffering in China. The inferior people not only "groaned and murmured" but died by the hundreds. In order to raise funds for the relief of the survivors the prefect of Hangchow levied a tax on each cup of tea sold in the tea houses of the great city. The ancient capital assessed in this arbitrary fashion resented that tax after the manner of the Bostonians of 1773. In spite of the humane object of the assessment, the citizens put a boycott on tea, and the proprietors of the tea houses cried out in protest.

The prefect issued a second proclamation, in which he assured his people that happiness was their sure reward if they cheerfully contributed to this excellent cause. This agreeable assurance had no effect on the boy cotters, and the tax had to be removed. Perhaps this is the only instance on record where a cityful of people were banded to resist compulsory "happiness."—Youth's Companion.

That Was Different.

Repeatedly he had heard the young woman boast of eluding the vigilance of the conductor and riding home free so when he got a chance to sneak a ride for both of them he slipped the time back into his pocket and smiled upon her in triumph.

"Didn't you pay your fare?" she asked.

"No," said he. "The conductor never even looked our way."

She said nothing, but her look of disdain was unmistakable.

"I've heard you tell many a time of doing the same thing," he said defiantly.

"Oh, well," she said, "that's different. For a man!"

And the young man understood that there certainly is a double standard for the sexes.—New York Sun.

A Caution.

Reginald—I love you, Madeline. For you I would give up family, position, wealth. Madeline—Hold, Reginald! Giving up family is all right. I fear you would be spared a mother-in-law. Give up your position if you can get a better one, but please hold on to your wealth. We may need it.

A Scientific Question.

"Nothing is ever totally lost or destroyed," said the professor of physics. "In that case," said the simple and frank person, "how do you explain the fact that everybody loses umbrellas and you never meet anybody who has found one?"—Washington Star.

Hard Water.

Aunt Jane—Is the water where you live now hard or soft? Niece—I guess it's pretty hard. The girl splatters some on the lamp chimney the other night, and it broke all to pieces.

In this world one must be a little too kind to be kind enough.—Mark Twain.

A Curious Fish

A deep sea fish has been discovered that swallows other fish actually larger than itself. Chasmodon niger is the scientific name of this deep sea fish. It has formidable teeth, a mouth of enormous capacity and a stomach of such distensibility that nothing less than a whale seems too big for it to swallow.

A Practical View

"More worry for us women. The scientists say that women's feet will get larger with each succeeding generation."

"That may be true, but I do not see why those who are already provided with feet need worry." Harver's Weekly.

AT THE COURT HOUSE

INSANITY AND
SELF DEFENSE

Attorney Rush Says That a
Double-barrelled Defense
Will Be Used

Farnsworth Now Testifies
Winn's Reputation for
Peace Was Bad

"In every connection with this case, I have never heard of the remotest contention of the defense but what the defendant was insane. Moreover, I will say that we will present a double-barrelled defense, insanity and self-defense."

With these words Attorney Jud Rush outlined the intention of the defense in the trial of S. H. Overacker, charged with the murder of G. A. Winn, a Newhope farmer, on Jan. 13, 1911. Attorneys Rush and B. E. Tarver, representing Overacker, evidently intend to rely principally upon the defense of insanity. In the first trial both defenses were alleged.

District Attorney West and Deputy Koenigs this morning closed the case of the prosecution. The witnesses for the state yesterday were quickly examined. G. S. Wilson, former deputy sheriff, Sid Smithwick, former constable, Dr. Ball, former county physician, and G. S. Smith, former coroner, testified. Wilson and Smithwick testified to meeting Overacker, who gave himself up to them soon after he had killed Winn. The two officers carefully measured distances, showing that Winn was twice fired upon while he was running away from Overacker. Dr. Ball described the wounds upon the body, and Smith identified the shovel, the rifle and other exhibits produced at the coroner's inquest.

This morning Attorneys Rush and Tarver, representing the defense, called their first witness. He was F. F. Farnsworth, who lived next door to the two men whose quarrel resulted in the death of Winn.

Farnsworth testified that Winn had tried to get him to join with him "to straighten Overacker out." At Talbert Winn had asked him to sign a petition asking that Overacker and his wife be sent to the insane asylum.

In response to Rush's question as to whether or not Winn's reputation for peace and quiet was good or bad, Farnsworth said it was bad.

District Attorney West then pulled out the transcript of Farnsworth's testimony at the first trial, in which Farnsworth said Winn was not a dangerous man, and when the court told

him to answer that Winn's reputation was either good or bad, Farnsworth had answered: "I must say that it was good." Farnsworth stated that he still contends that his reputation so far as being dangerous is concerned was good.

Suicide's Will

The will of Edward F. Stahl, who shot himself to death near Anaheim on Oct. 31, was filed for probate today by Attorneys Melrose & Ames of Anaheim. The will was written on Aug. 3, 1911, in Hunt County, Tex., and it leaves the entire estate of \$5,500 to the widow, Mrs. Jennie Stahl.

Files A Petition

The widow, Mary S. Lentz, has petitioned for letters of administration on the estate of Andrew Lentz, formerly storekeeper at El Modena. The estate is valued at \$5400. Langley & Thomas are attorneys for the petitioner.

Is a Citizen

Yesterday afternoon Judge West admitted Narcisse Roy of Anaheim to citizenship. R. E. Hendrick and W. H. Fox were the witnesses who had known him five years.

Marriage Licenses

C. W. Penturf, 23, of Los Angeles and Lillie Varley, 20, of Long Beach; Albert H. Spengel, 21, and Dawn T. Isell, 23, both of La Habra; Albert A. Savas, 56, and Lillie Gaunlbey, 36, both of Fullerton; George Vogeley, 27, and Anna Bodenstein, 27, both of Long Beach.

FOREVER ENDS
INDIGESTION

No Heartburn, Gas, Headache
Or Dyspepsia Five Min-
utes Later

—Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapepsin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at your drug store, waiting for you.

These large 50-cent cases of Pape's Diapepsin contain more than sufficient to cure any case of Diapepsin. Indigestion or any other stomach trouble.

TRAINS DETOURED

SUNSHINE, Cal., Nov. 7.—All traffic on the Southern Pacific railroad was detoured via Tracy today as the result of the sinking of the tracks twelve miles west of here. Three car lengths of track had been sinking for several days in a piece of marshy ground and today sagged to a depth of ten feet. East-bound overland trains were delayed several hours.

Fruit Cake

(Recipe by Mrs. Mary J. Lincoln)

Mix four cups sifted pastry flour, one level teaspoon soda, two level teaspoons mixed spices (except cloves), one-fourth level teaspoon salt and two cups seeded and quartered raisins. Add also one-half cup nuts chopped fine, if you like. Blend one-half cup Cointreau with one cup brown sugar and one cup white sugar, add one cup molasses, one cup milk and then the flour mixture. Beat well and bake in two pans.

You will find this fruit cake as light, moist, flavory as any you ever made with butter. You save something, too, by using Cointreau—the perfect shortening.

IN THE JUSTICE'S COURT

SAYS STEWART
USED VIOLENCE

William Besser Wants Dredg-
ing Contractor Arrested
for Battery

There has been more or less trouble among the men employed in dredging on the Santa Ana river for the Newbert Protection district. Some of the trouble broke loose in the justice's court today when William Besser appeared and asked for a warrant for T. M. Stewart, the contractor for the dredging. The warrant was issued. Besser, who lives on Tenth street near Bush, stated that Stewart has used force and violence upon him with malicious intent.

This is the second recent battery complaint in the justice's court. Clyde Files recently swore to a complaint charging Robert Jewett with battery.

May Go Upstairs

Yesterday when the case of the seven Japanese divers who were arrested for taking abalone of irregular size at Laguna Beach was before Justice Cox, their attorney declared the law is contradictory. Trial was set for Nov. 24. The attorney said he would go into the superior court after a writ of habeas corpus, and get his men freed from the charge. They are out on bail.

Much Disturbance

Luiz Cachon today swore to a complaint charging three of his neighbors at Talbert with disturbing the peace. It is getting to be the usual thing for a row of some kind to take place among the Mexicans at Talbert every Saturday night or Sunday. Cachon complains that Bente and Lorenzo Baracas and Pamillo Martinez were the chief disturbers last Sunday.

MORE LIGHTS
FOR ORANGE

City Trustees Expect to Sign
New Contract With Light-
ing Company

ORANGE, Nov. 7.—The City Trustees expect to sign a contract with the Southern California Edison Company whereby the street lights of Orange will be increased from 50 to 150, and a much larger area of the city will be lighted. The change will also result in the installation of the new tungsten lights.

The trustees have adopted specifications for the paving of the streets around the plaza.

The Richland Walnut Growers' Association will close its packing-house on Saturday. The association this year handled 300 tons, which is about double last year's output.

Notice to Real Estate Agents
—You will please take notice that I do not wish to dispose of my 10 acre beet ranch.

H. F. RODGERS.

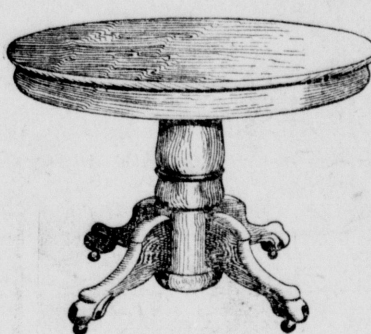

New Furniture Firm's
ANNOUNCEMENT

The change recently in the furniture firm of Liebig, Clausen & Johnson by the first and last named partners buying Mr. Clausen's interest has led to some changes in the business policy of the store that will be more or less interesting to the public in general.

This house for years has handled a very complete line of high grade House-furnishings and has sold goods at lowest prices, but has not said much to the public about it, contenting themselves with their growing list of satisfied customers. From now on we will from time to time tell about our goods in the columns of this paper.

It's one thing to make a statement, and quite another to back it up with the goods. If you don't know us—put us to the test—go through our stock from basement to balcony and compare the Superb Quality of our stocks and prices with others—and you will become a convert.

WE'VE GOT A BIG STORE THAT IS OVERFLOWING WITH BEST MAKES OF FURNITURE AND RUGS MOST OF WHICH ARE EXCLUSIVELY TO BE FOUND HERE.

Our Splendid Dining Room Furniture Is
Not Surpassed in Quality in This County

We carry 25 patterns of the newest styles of dining tables in all the finishes of oak; Golden, Fumed, Early English, etc., and have the buffets, sideboards and chairs to match.

Dining Tables from \$6.50 to \$50.00.
Dining Chairs (50 styles) 65c to \$6.00.

Roast that Thanksgiving Turkey on
A DETROIT JEWEL GAS RANGE

This gas range has been thoroughly tested during the past several years in dozens of Santa Ana homes and is pronounced the most economical in fuel consumption of any gas range on the market, as their owners will bear witness.

Simplest, easiest to clean, safest, most durable and greatest saver of fuel.

Perfect Collar Work at Last

No Friction
Simply
Pressure
No Cracking
No Shining
Streaks
Tie Slips
Freely

The latest machine for finishing the popular turn-down collar is now in operation in our plant.

Before placing the collar in the mould it is given moisture far in excess of the old process, which insures its being turned and molded into shape without cracking and insures a smooth fold.

The outer portion of a collar is separated from the band so that a space is molded between, MAKING A NATURAL AND AMPLE TIE SPACE, PERMITTING FREE SLIPPAGE OF THE NECKTIE.

This is the only method by which collars are turned without cracking. A trial will convince you that our work is superior.

INVESTIGATE OUR NEW PROCESS ON TABLE LINEN.
